

## **Hosting AFS International Students**

For the fourth consecutive year, American students will be visiting our school under the NSLI Programme ( National Security Language Initiative for Youth ). This programme is sponsored by the US Department of State which works in collaboration with AFS India for providing a six-week intensive Hindi Learning Programme in Indore.

The students stay in Indore for six weeks – they normally arrive in the first week of July and return to the US by mid-August . They live with the students who host them, commute to / from school by bus and follow the normal school / home routine.

Students who would like to host these students in their homes are requested to fill the form given below and submit it in school latest by Monday 09 April 2018.
