

TEJAS

Youth for Youth

After having a number of successful and buoyant charchas and interacting with all of you in our drives last year, we now plan to extend our initiatives to this year too- We are back!

WHO ARE WE?

The word "Tejas" symbolises brilliance, sharpness and lustre. Tejas is a student run organisation, which aims to empower youth by stimulating critical thinking and leadership skills among the students. We intend to bring out the shine in individuals, sharpen and strengthen their skills and give them a lesson of life i.e. to "contemplate, consider and conclude". In order to achieve the objective of the organisation, various activities will be conducted 'by the students- for the students' sticking to our motto of 'Youth for Youth.'

CHARCHA – WALK THE TALK

By Tejas

Charcha is an integrated program of Tejas for students from Grade 7 to Grade 10, which essentially focuses on approach development and leadership thinking. The key here is 'it's the context which should be relevant.' Through debates and discussions we aim to 'walk the talk' and thus, take concrete steps to resolve the issues at hand. All of us at Tejas believe that emerging leaders are equipped with the power to take action and maximise their impact. Hence, we aim to develop leadership skills by providing peers with various opportunities in form of leading clubs, societies and initiatives. Not only leadership qualities, but other values would also be instilled through a number of social service programs. Charcha will enable students to become thoughtful, and aware citizens.

PROGRAM STRUCTURE

Charcha offers students a platform to express themselves, interact with other students and engage in discussions on issues, which are pertinent to their lives. We primarily believe that learning about self is as important as learning any other subject. To facilitate this, Charcha would include the following-

1. Debates and discussions with Shishyans about issues concerning their daily lives or the society as a whole. It will solely be a student driven discussion that help to enlighten the students.
2. Orienting drives- This is the exclusive part of Charcha, fulfilling the motto let's walk the talk. Students will be asked to meet on a weekend to take steps in order to resolve the problems at hand.

We introduce to you the agenda of our very first Charcha of this session!

We will have Mrs. Shweta Khandelwal with us from Speech craft, who will interact with you about Public Speaking and Stage Fear.

Date: April 22, 2019

Timings: 1:30 p.m. to 3 p.m.

This is for all the interested students of Classes 7,8, 9, and 10. Students need to register to confirm their attendance.
