

Dear Parents,  
Namaste

How time flies! We have come to the end of the academic session 2015-16. Students of class V have already begun their next session and now they are the proud students of the class VI. The students of classes III & IV are through with their final reviews. Class reviews and revision sessions planned for the students helped them to prepare for their unit tests confidently. Celebrations and special assemblies have helped in grooming the children and making them more confident. It is a pleasure to see the children across the junior wing express their opinions and views with ease. The field trips and events organized for the students helped them to work in groups and teams. The children have blossomed into strong individuals and are all set and ready for the next class.
