**INFORMATION & COMMUNICATION TECHNOLOGY (ICT)** - The ICT curriculum provides the children with skills and attributes that they require to become empowered participants in an increasingly ICT mediated and globalised world. They learn to access, create and communicate information and ideas and work collaboratively in all learning areas. This is tested through a practical review in each term.

The overall assessment of a student constitutes both scholastic and co-scholastic areas. The scholastic grading shall be based on an 8 point grading scale.

The students will be assessed in the following co-scholastic areas:

- Art & Craft
- Music
- Dance
- Sports

The aptitude and skills of the students in the co-scholastic areas will be evaluated on a continuous basis and will be graded according to their level of learning.
