## Artificial Intelligence & Robotics

Artificial Intelligence & Robotics – the world today is largely driven by these new-age technologies. With the rapid digitization of the world, the trailblazers of tomorrow-our children, must be empowered with the right skills and knowledge. For this reason we introduce students to the enchanting world of AI, Coding, and Robotics in Class V. The following table gives an overview of the learning of these skills. (It will **not** be a part of the ICT review.)
