

Circular for Parents of Classes VI to XII Session 2020 -21

SIS/EXAM - NOV 004/2020

November 23, 2020

Subject: Date Sheet for Upcoming Examination.

Dear Parents

Namaste

Season's Greetings. We hope this mail finds you and your family safe and in good health.

The scores of the First Major Examination 2020 have been mailed to all students on their school email id.

This first online examination was an honest effort from the school to help students identify their learning gaps so that they could work upon them.

We appreciate the students who undertook these exams honestly and lived up to the values taught by their parents and the school. While our educators were closely monitoring the examination, it was a delight to see the parents doing their bit and watching over their wards as they wrote the exam. **A very**

important lesson for the students to learn from this examination is: they have to take responsibility for themselves and not depend on others to monitor them. We have also come across answer scripts which were attempted by taking help from various sources (text books/ google etc.), which reflects misplaced values amongst few students.

We are sure that this is a learning exercise for all and will help each student to reflect and take responsibility and ownership and also learn to take the right path.

As we wait for the orders from the government for reopening of the schools we feel we should go ahead and plan our Mid Term examination for classes VI to VIII, Second Major Examination For classes IX and XI and First Pre Board Examination for classes X and XII.

As we approach these examinations, **we request parents to help us maintain the sanctity of examination and monitor their ward while they take their papers**, so that we get the true reflection of learning. We are sure this in turn will help us identify the weaker areas for remediation. In doing so we will help Shishyans to take this very important phase of life very seriously.

As we share the schedule for the examination, we request all parents to be ready to take the responsibility of their ward writing the examination in all honesty and seriousness. Consider this examination as a 'joint venture' of the parents and the school, the success of which is crucial to all stakeholders.

The guidelines for the examination are as follows:

1. The examination will be conducted online on the google classroom.
2. The duration of the examination will be as follows :

Classes VI - VIII: 02 hours

Classes IX - XII: 3 hours

3. The syllabus for the examination has been **uploaded on the school website**.
4. Question papers for Classes X and XII will be strictly as per the CBSE pattern and will carry the same weightage of marks as assigned by CBSE.
5. For Class X, students will appear for the BASIC/ STANDARD Mathematics paper as per the choice opted by them.
6. **The date sheet for the examination is attached with this email.**

We will be sharing further details about the examination in the next few days.

We look forward to your valuable support in achieving the purpose of this examination.

Kind regards

Dr. Lalita Singh

Principal
