Subject: Final Examination Answer Scripts for Review

Dear Parent
Namaste

This has reference to the few mails received by us from the parents with a request to review the Final Examination answer scripts of their wards.

As you are aware in normal circumstances, we always share the answer scripts of all examinations with the parents and students for self-analysis and assessment. However, during these COVID times and the curfew, the corrected answer scripts are still with the educators and we have been unable to collect them because, either some of the educators themselves or their family members, are COVID positive. In certain cases, in view of the educator teaching a particular class turning COVID positive, we had to get the answer scripts corrected by another educator.

Once the situation improves and the curfew is lifted, we will be able to collect the answer scripts from the educators and will gladly share them with you.

We trust you will appreciate our concern and extend your cooperation during these difficult times.

Kind regards

Dr. Lalita Singh
Principal
