Subject: Special Support Classes for NTSE 2021-22

Dear Parent
Namaste

Kindly note the NTSE 2021-22 is scheduled to be held in November/December 2021. While the final date for the same is awaited, we would like our students to begin preparing for the same in earnest.

We are proud to inform you that Shishyans have been performing extremely well in this examination over the past few years. In order to help the present batch of students prepare for this prestigious examination, our educators have very kindly consented to conduct Special Preparatory Classes for them. These classes will be held before / after the regular online classes and will cover all subjects and all aspects which are required for this examination.

These Special Preparatory Classes are one more special step taken by the school to help students excel in a field of their choice. We are sure this additional support offered by our educators will give an extra edge to the students while appearing for this examination.

The classes will be held as per the schedule given below:
