

Circular for Parents of Classes IX & XI Jhalaria Campus : Session 2021-2022

SIS/EXAM JAN 01/2022
January 06, 2022

Subject: Third Major Examination 2021-2022

Dear Parent
Namaste

Kindly be informed that the Third Major Examination scheduled for Classes IX and XI **will be conducted OFFLINE** in school from January 10 to 15, 2022.

The school has made arrangements for extra precautionary measures to be taken for the safety of Shishyans. The seating of students in the exam hall/classrooms will be very well spaced out. All our examination areas are well ventilated and the windows and doors will be kept open for easy ventilation at all times.

We have received a few emails from parents expressing their concern regarding the Offline examination. While we do understand the concern of the parents, we are all aware that the authenticity of an online examination is always in doubt. Many students resort to a variety of unfair means during the examination and as a result the whole examination process becomes futile. In spite of our best efforts, stopping such unfair practices online is impossible. An online examination, therefore, is no reflection of the learning that has taken place.

Further, we would like to highlight the fact that the students are in dire need of practice in giving a subjective paper (descriptive answer type) as the Final Examination for all classes from IX – XII will also be subjective. The earlier examination was objective and a great deal of practice is required for students to be ready to write subjective answers.

We hope parents will appreciate the fact that conducting the examination online is very easy for the school. It entails minimal logistics and can be conducted without any problem. However, it is in the interest of our students that we have decided to walk the harder path and conduct the examination offline in school.

Rescheduling the examination for a later date is also not possible as the Term II Final Examination of students is scheduled from March 02, 2022 onwards.

The examination will be conducted online ONLY if we receive specific directives from the State Government to do so.

In the best interest of our Shishyans, we urge parents to send the students to school to take the Third Major Examination offline. Kindly be assured that all COVID protocols will be followed during the examination.

We seek your kind cooperation in the smooth conduct of the examination and pray for the good health of all members of the Shishukunj family.

Kind regards

Dr. Lalita Singh
Principal
